All-in-One DVR and Camera System (Item: DVR508)

Get the portable, Professional-Grade, high-res video recording you need without all of the complicated menus and settings! The DVR508 is an easy to use, handheld DVR unit that offers motion activated recording and includes a color button camera, all for a low price.

Features:

Our Lowest Cost Solution for a Complete Hand Held DVR and Button Camera Set.

Record & Review on the go. It's never been easier with this light weight cordless motion activated button camera and compact high-res LCD DVR system. With the DVR508 discreetly capture and review HD footage all in the palm of your hand. We have seamlessly designed this easy to use DVR and camera system with an on board menu, so don't bother with the settings or figuring out how to use it. Place the camera in a desired location, pick a button, use the DVR to record, stop when finished and then review footage. This can hold up to 32GB in storage, to collect multiple recordings in 720 resolution. Our DVR is complete with a rechargeable battery, so don't worry about finding those AA batteries! Our system is compatible with both Mac & Window users, so anyone can use it.
